WE ARE A PIONEER IN THE TEXTILE MARKET

OUR PASSION FOR INNOVATIVE FABRICS
ALWAYS PUTS US ONE STEP AHEAD.

We are a pioneer in the textile market with more than 1600 items, each of which convinces with quality, uniqueness and innovation. We not only make it our personal task to offer our customers fabrics with special functions, but we also always passionately research the development of new products. Our focus is always on „diversity“ – whether the variety of our products, the various industrial sectors that we supply or our customers around the globe.

In our work, continuously improving processes is particularly important to us. We always strive to make our work strategies even more efficient in order to be able to produce and deliver even faster and thus to do justice to the fast-moving market. This is precisely why the team is so important to us – because a product is only as good as the team behind it.

We not only make it our personal task to offer our customers fabrics with special functions, but we also always passionately research the development of new products.

Creativity requires a pleasant working environment. And our offices are designed in keeping with this idea.

A big step: Our new company building in Löhne with an area of 15,000 square meters including the showroom.

WE LIVE FOR THE FABRICS OF THE FUTURE

THE FABRICS OF THE FUTURE ARE
CREATED AT GLOBA-TEX. REALIZED FOR
THE WORLD OF TOMORROW.

With our know-how and our love for fabrics, we are a reliable partner for our customers. We are passionate about developing new products so that our customers are always one step ahead. In this way, we enable our customers in any industrial sector to integrate a piece of the future into their products with Globa-TEX fabrics.

We are young, stylish and ambitious – these qualities stand for our entire team, which has been a solid unit for years. We're always thinking about the next step. With our move from our small office to our new, large company building with over 15,000 square meters, we have set a milestone for the future which makes us particularly proud.

We are young, stylish and ambitious –
these qualities stand for our entire team,
which has been a solid unit for years.

Our team consists of experts,
inventors and creative people.
Together we develop perfect fabric.

We place extremely high
demands on fabrics. And we want to
get even better every day.

A PRODUCT WORLD FOR EVERY LIFESTYLE

FIRST-CLASS FABRICS THAT STAND FOR
UNIQUENESS AND THE BEST QUALITY.

The consumer is the focus of our product range: Our goal is to create products that appeal to everyone and meet the needs of all industries. We attach great importance to consistent further development, highest quality and absolute style confidence.

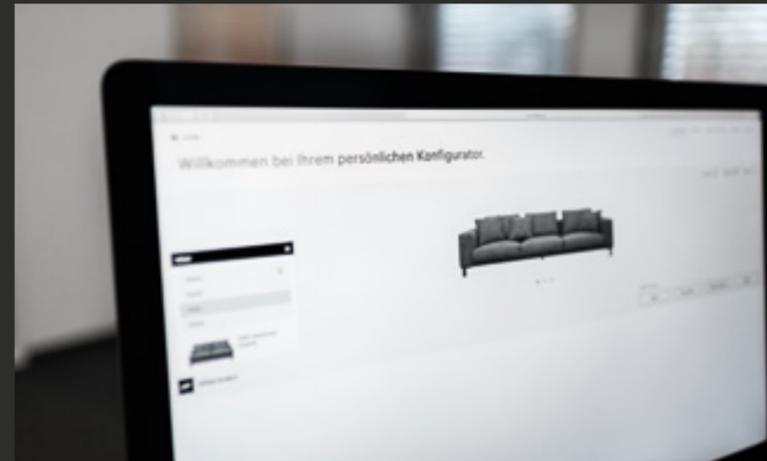

Our extraordinary trend awareness begins with product development and color selection, where our designers attach great importance to current trends. Our unique functional fabrics CanvasBione, MerlinMagic, SmellRes and BodyFlux are particularly close to our hearts. With our tremendous passion for fabrics and many years of experience, we have developed a comprehensive brand world that offers everything from odor- and stain-resistant to flame-retardant fabrics.

Our extraordinary trend awareness begins
with product development and color
selection, where our designers attach great
importance to current trends.

With a passion for excellent fabrics
we are always one step ahead.

Colors, materials and technologies:
We develop the trends of tomorrow
for our customers.

WE THINK GLOBALLY BECAUSE THE WORLD IS OUR HOME

WE ARE PROUD THAT WE
SUPPLY CUSTOMERS WORLDWIDE
WITH GLOBA-TEX FABRICS.

Since our all-encompassing goal is always to fulfil the wishes of our customers, we also supply them worldwide. Thanks to our knowledgeable logistics, we make it possible to obtain Globa-Tex fabrics where they are needed. Be it to Europe, Asia, Africa or America, we distribute our fabrics all over the world. With regard to the industrial sectors in which Globa-Tex fabrics can be found, there are no limits – whether upholstered furniture, contract furnishings or ready-made clothing.

HISTORY OF THE FOUNDING OUT OF PURE LOVE FOR FABRICS

OUR WAY: FROM A SMALL OFFICE
TO A GLOBALLY OPERATING COMPANY.

Founded in 2008 in a small office, our unique love of fabrics has enabled us to develop into a global textile manufacturer that is shaping the future of the industry. Today we are proud to have 45 employees in our office and sales force and 15,000 square metres of warehouse and office space in Löhne to call our own. Since our founding we have won over the market with innovative thinking and a sense for trends, without neglecting our environment on the way. It is precisely this passion for fabrics, which has shaped Globa-Text from the very beginning and which has enabled us to achieve great growth, high demand, many new employees, new collections, many trade fairs, enormous customer growth, collection expansions and worldwide expansions.

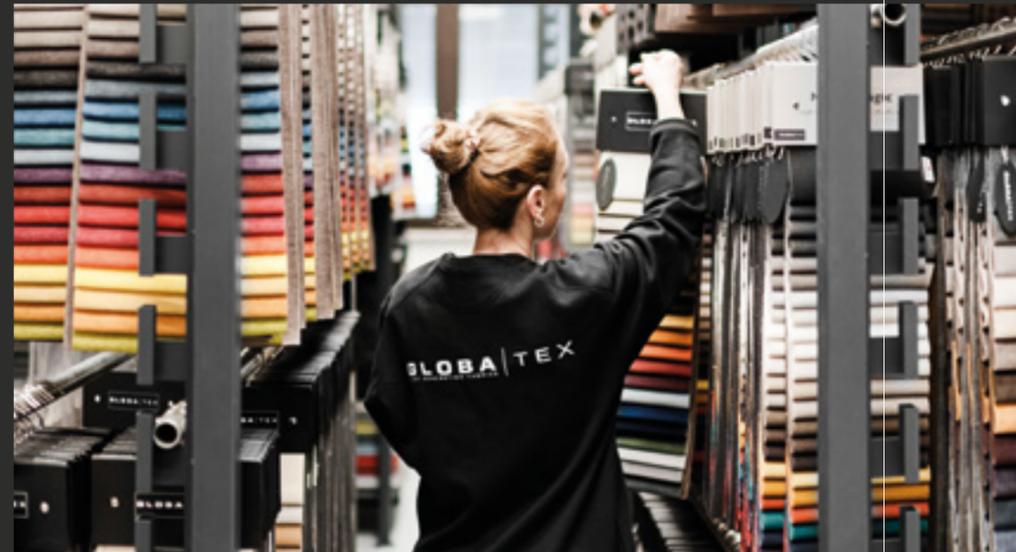

In order to further optimize our production processes, we worked closely with Unirez to finely tailor the SAP software to the needs of Globa-Text and to finally successfully introduce it.

Since our founding we have won over
the market with innovative thinking and
a sense for trends, without neglecting
our environment on the way.

Our team has grown steadily since Globa-Text was founded. We are particularly proud of this.

Our growth can also be seen in our offices which are spacious, bright and communicative.

QUALITY AND SUSTAINABILITY ARE NOT A CONTRA- DICTION IN TERMS

WE OURSELVES ARE OUR GREATEST CRITICS.
AND THAT'S A GOOD THING.

In order to be a strong partner for our customers, we set ourselves the highest standards for our fabrics and subject them to strict quality control. But our customers also stand for high quality standard, which is why we go well beyond legal requirements and regularly test all our products in the CTL laboratory in Bielefeld. Not only do we attach great importance to the longevity and absence of harmful substances in our fabrics, but we also guarantee that all fabrics in the collection and newly developed ones comply with the regulations of DIN EN 14465 – 2006 for upholstery fabrics. We are proud to be able to guarantee our customers unique quality with numerous quality seals, such as OEKO-TEX. We also aim to maintain our quality standards at all times when further developing our fabrics.

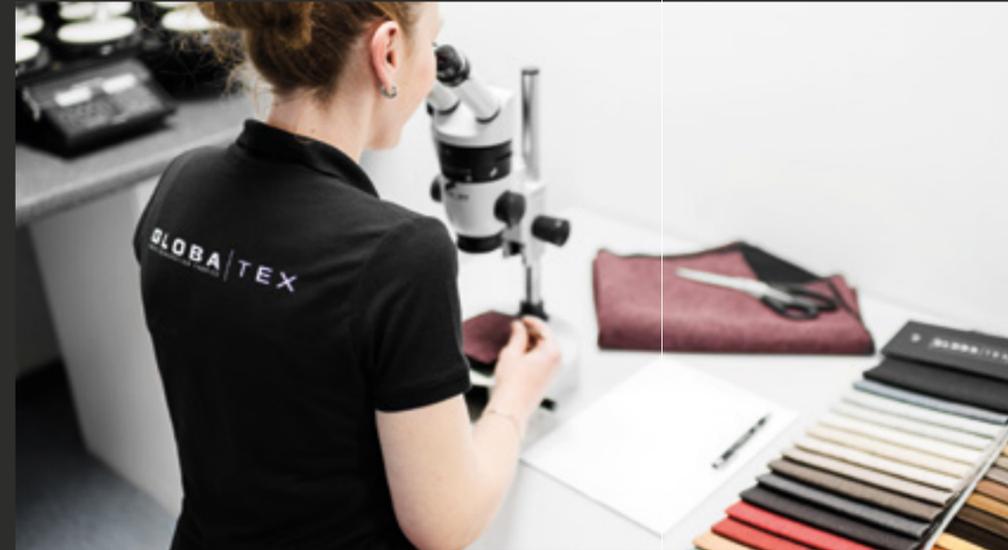

For us, quality does not stop with the functionality of the fabrics, but with the traces that we leave behind with our actions. Sustainability and environmental awareness have the highest priority for us – both in production and in packaging. That is why we have our products regularly tested by renowned institutes such as CTL. Many of our products have also been awarded environmental seals of approval and are therefore subject to special requirements.

For us, quality does not stop with the
functionality of the fabrics, but with the
traces that we leave behind with our actions.

Strict quality control is a matter
of course for us because our environment
is dear to our hearts.

Respectable, transparent and expressive:
Our products are distinguished by various
environmental seals.
